Education

- Dec 2020 - present University of Auckland, New Zealand
Ongoing Ph.D. in Physics, supervised by Prof. J.J. Eldridge.
Thesis: Impact of companion and surroundings on stellar and compact binary evolution.
- Mar 2019 - Feb 2020 University of Auckland, New Zealand
Masters in Physics, supervised by Prof. J.J. Eldridge.
Thesis: [Constraining the supernova remnant mass spectrum using gravitational wave transients](#).
- Jul 2014 - Nov 2018 University of Auckland, New Zealand
BSc: Physics & Mathematics & PGDip Physics
Thesis: [The Kibble Zurek Mechanism](#) - supervised by Assoc. Prof. M. Grimson.

Publications

- [1] **S., Ghodla**, R. Easther, M. M. Briel, and J. J. Eldridge. *Observational implications of cosmologically coupled black holes*. *The Open Journal of Astrophysics*, 6:25, July 2023.
- [2] **S., Ghodla** and J. J. Eldridge. *Sustained super-Eddington accretion around neutron stars & black holes*. MNRAS, 523(2):1711–1717, August 2023.
- [3] **S., Ghodla**, J. J. Eldridge, E. R. Stanway, and H. F. Stevance. *Evaluating chemically homogeneous evolution in stellar binaries: electromagnetic implications - ionizing photons, SLSN-I, GRB, Ic-BL*. MNRAS, 518(1):860–877, January 2023.
- [4] **S., Ghodla**, W. G. J. van Zeist, J. J. Eldridge, H. F. Stevance, and E. R. Stanway. *Forward modelling the $O3(a+b)$ GW transient mass distributions with BPASS by varying compact remnant mass and SNe kick prescriptions*. MNRAS, 511(1):1201–1209, March 2022.
- [5] H. F. Stevance, **Ghodla, S.**, S. Richards, J. J. Eldridge, M. M. Briel, and P. Tang. *VFTS 243 as predicted by the BPASS fiducial models*. MNRAS, February 2023.

Contributed, Invited Talks and Colloquium

- Feb 2023 University of Helsinki, Finland (Invited) [\[Link\]](#)
- Nov 2022 Swinburne University of Technology, Melbourne, Australia (Contributed) [\[Link\]](#)
- Aug 2022 Harvard & Smithsonian, USA (Contributed, online) [\[Link\]](#)
- Jun 2022 Astronomical Society of Australia - University of Tasmania (Contributed online)
- Jul 2021 *New Zealand Institute of Physics* - Wellington, New Zealand (Contributed)
- Oct 2020 Ilya Mandel's group (COMPAS) - Monash University Melbourne, Australia (online)
- May 2020 MSc colloquium - University of Auckland, New Zealand

Workshops Attended

Feb 2023	Summer School on Gravitational Waves.	<i>University of Auckland</i>
Dec 2022	Gravitational Wave Physics & Astronomy workshop (<i>Presented poster</i>)	<i>Monash University</i>
Aug 2021	Modules for experiments in Astrophysics (MESA) workshop (virtual).	<i>UC Santa Barbara</i>
Jan 2020	NZMRI summer school - Mathematical Aspects of General Relativity.	<i>Nelson NZ</i>
Dec 2018	Statistical Mechanics & Condensed Matter workshop (<i>Presented poster</i>).	<i>University of Auckland</i>

Teaching Duties and Advising

Aug 2023 - present	Mentor - final year Master's student. Topic: neutron star - white dwarf merger Tutor - Tuākana help room geared towards Māori and Pacific students.
Feb 2023 - Jul 2023	Tutor - Tuākana help room for Māori and Pacific students Tutor - Physics 102 - Basic concepts in Physics - <i>gave tutorials twice a week and ran help room session once a week.</i>
Jul 2022 - Nov 2022	Tutor - Physics 203: Relativity and Quantum Mechanics - <i>gave tutorials once a week and graded tutorials and assignments.</i> Tutor - <i>Drop in helproom for all Stage 1 courses.</i>
Feb 2022 - Jun 2022	TA Physics 202 - <i>Classical Mechanics & Thermodynamics</i> - graded assignments. Lab demonstrator - Physics 100 - <i>Introduction to Astrophysics.</i>
Jul 2021 - Nov 2021	TA Physics 201 - <i>Electromagnetism</i> - graded and provided solutions for assignments. Lab demonstrator - Physics 100 - <i>Introduction to Astrophysics.</i>
Feb 2021 - Jun 2021	TA Physics 202 - <i>Classical Mechanics & Thermodynamics</i> - graded assignments. Lab demonstrator - Physics 100 - <i>Introduction to Astrophysics.</i>

Public Talks & Outreach

Dec 2023	<i>TBD</i> - Upcoming public talk at Auckland Astronomical Society .
Jun 2023	<i>Black holes and dark energy.</i> Public talk at Hibiscus Coast Astronomical Society .
Mar 2023	<i>What leads to super-energetic supernovae & supermassive black holes?</i> - Public talk: Hamilton astronomical society.
Jul-Oct 2021	Three outreach events (talks & demonstrations) at Kowhai Intermediate School.
Jun 2019 & Apr 2020	Participated in representing University of Auckland Physics at MOTAT science fair.

Awards, Scholarships & Recognition

- University of Auckland doctoral scholarship Dec 2020 - Nov 2023: \$95k (NZD)
- Recognized for outstanding Physics Tutoring, Semester 1 2023.
- Research Project Scholarship 2022 - Faculty of Science University of Auckland \$6K (NZD)
- Granted 150K computation core hours, three times each between 2021 - 2023.
- Featured in the *Royal Society of New Zealand's* annual 2022 report for a series of successful school outreach.

Journal clubs & Posters

Feb 2021 - present given 17+ talks at Astro & Cosmology Journal club. *University of Auckland*
May 2023 - present given 3+ talks at the NZ gravity Journal club *New Zealand collaboration*
Sep 2023 Poster - Graduate research showcase. (shortlisted; results on 17 Oct 2023)
Nov 2021 Poster - Graduate research showcase.

Miscellaneous professional service

- Journal referee for *Monthly Notices of the Royal Astronomical Society*.
- Host of Astrophysics & Cosmology journal club from Jun 2021 - present (organized 80+ talks).
- Organizer and primary contributor to astro reading group 2021-2022.
- Contributor to *Physics Stack Exchange* [[Link](#)] (top 2% this year, 60+ questions answered, 17K+ people reached) - top tags: general relativity, cosmology, quantum mechanics.

Coding and other skills

Astrophysical codes Developed routines for TUI - a satellite code of [BPASS suite](#) - used in [[1](#), [3](#), [5](#)] .
Proficiency in [MESA](#) - a software suite used for modeling a range of phenomena in stellar astrophysics physics - Created models used in paper [[1](#), [3](#)].

Computing languages Proficiency in FORTRAN - primary language of TUI and MESA.
Proficiency in PYTHON - primary language for data analysis in all my work.
Proficiency in [SAGE](#) - primary source to verify analytical calculations.
Proficiency in Slurm - used in [[1](#), [3](#)] for scheduling jobs on high-performance computers.
